

SloanAcademics

Every child's success is different.

HIGH SCHOOL SERVICES

2010-2011

**SAT/ACT
PREP**

Students planning to take the SAT or ACT who require flexible scheduling and one-on-one assistance will find our tutoring perfectly suited to meet their needs. Tutoring sessions are 90 minutes long and can be scheduled around extra-curricular activities.

Our 10-session course covers math and verbal sub-tests.

Our 6-session course covers either math or verbal.

Please see our website for more details.

One-on-One Tutoring

NEED HELP WITH A MATH COURSE?

We offer tutoring in most high school math classes!

We have successfully helped students improve grades and exam scores (including EOC exams) in Algebra 1, Geometry, Algebra 2, Pre-Calculus, Calculus (including AP), AFM, Discrete, and Statistics. Tutoring plans are designed to meet the needs of each individual student.

STRUGGLING WITH ANOTHER COURSE?

We also offer tutoring for most high school subjects. Tutoring is available on a monthly schedule one or two times per week. Drop-in tutoring is offered for limited needs such as preparing for a single exam or completing a project or paper.

Please see our website for more details or call to inquire about the availability of a tutor for a specific subject.

LEARNING STRATEGIES & STUDY SKILLS

We have an 8-session Learning Strategies course to help students improve study skills. We help students improve time-management, organizational, note-taking, and test-taking skills, as well as textbook reading comprehension. Scheduling is flexible and tune-up sessions can be scheduled as needed after the course.

Educational Testing

Does Your Child Have Academic Struggles?

Dr. Sloan has 20 years of experience in the local community helping parents identify the source of learning problems in their children.
